21 Plaintiff, Ronald A. Katz Technology Licensing, L.P. ("Katz Technology Licensing"), by
22 counsel, alleges as follows:

23 **THE PARTIES**

24 1. Plaintiff Katz Technology Licensing is a limited partnership organized under the
25 laws of the State of California, and having a principal place of business at 9220 Sunset Blvd.
26 #315, Los Angeles, CA 90069.
27
28

2. On information and belief, Defendant EchoStar Communications Corp. ("ECC") is a Nevada entity maintaining its principal place of business at 9601 South Meridian Boulevard, Englewood, CO 80112.

3. On information and belief, Defendant EchoStar Satellite L.L.C. ("ESLLC") is a Colorado entity maintaining its principal place of business at 9601 South Meridian Boulevard, Englewood, CO 80112.

JURISDICTION AND VENUE

4. This is a civil action for patent infringement arising under the United States patent statutes, 35 U.S.C. § 1 *et seq.*

5. This Court has jurisdiction over the subject matter of this action under 28 U.S.C. §§ 1331 and 1338(a).

6. Upon information and belief, Defendants ECC and ESLLC (collectively, the "EchoStar defendants") are subject to this Court's personal jurisdiction because pursuant to a January 2005 agreement ECC and ESLLC consented to the personal jurisdiction of this Court for suits arising from the Katz Technology Licensing patent portfolio. In addition, the EchoStar defendants do and have done substantial business in this judicial district, including: (i) offering satellite television programming to customers, including customers within this State and in this District; (ii) operating infringing automated telephone call processing systems, including without limitation the DISH Network customer service telephone system, that allow its customers, including customers within this State and in this District, to perform pay-per-view ordering and customer service functions over the telephone; and/or (iii) regularly doing or soliciting business, engaging in other persistent courses of conduct, and/or deriving substantial revenue from services provided to individuals in this State and in this District. In addition, Defendant ESLLC has designated an agent for service of process in the State of California.

7. Venue is proper in this judicial district under 28 U.S.C. §§ 1391(b)-(c) and 1400(b).

13. In 1988, Mr. Katz partnered with American Express to establish FDR Interactive Technologies, later renamed Call Interactive, to provide interactive call processing services based on Mr. Katz's inventions. The American Express business unit involved in this joint venture later became known as First Data.

1 14. Early clients of Call Interactive included *The New York Times*, ABC's *Monday*
2 *Night Football*, KABC Radio, CBS News, and Beatrice Foods (Hunt-Wesson division).

3 15. Many of these clients utilized Call Interactive technology for high-profile events.
4 For example, CBS News hired Call Interactive to operate an interactive, real-time telephone poll
5 to gauge viewer reaction to President George H.W. Bush's 1992 State of the Union address.

6 16. Mr. Katz sold his interest in Call Interactive to American Express in 1989 but
7 continued to provide advisory services to Call Interactive until 1992. American Express later
8 spun off the First Data business unit into a separate corporation, and with that new entity went
9 Mr. Katz's interactive call processing patents and the Call Interactive call processing business.
10 The former Call Interactive, now known as First Data Voice Services, continues to provide call
11 processing solutions today.

12 17. In 1994, Mr. Katz formed Katz Technology Licensing, which acquired the rights
13 to the entire interactive call processing patent portfolio, including the rights to each of the patents-
14 in-suit, from First Data, the owner of all of the Katz interactive call processing patents at that
15 time.

16 18. The marketplace has clearly recognized the value of Mr. Katz's inventions.
17 Indeed, over 150 companies have licensed the patents-in-suit. Licensees include IBM, Hewlett-
18 Packard, Bank of America, JPMorgan Chase, Wells Fargo, HSBC, Verizon, Sprint, Microsoft,
19 Delta Airlines, Merck, Sears, and Home Shopping Network. These licenses and others
20 acknowledge the applicability of the patents-in-suit to multiple fields of use, including but not
21 limited to financial services call processing, automated securities transactions, automated credit
22 card authorization services, automated wireless telecommunication services and support,
23 automated health care services, and product and service support.

24 19. Each of the defendants employs the inventions of certain of the patents-in-suit.
25 Katz Technology Licensing, through its licensing arm A2D, L.P., has repeatedly attempted to
26 engage each defendant in licensing negotiations, but to date, none of the defendants have agreed
27 to take a license to any of the patents-in-suit.
